

CONSCIENTIOUS, CONCIERGE, COST-EFFECTIVE DENTISTRY

Dr. Rina Singh, DDS
1902 Market Street. Camp Hill, PA
717-761-0283 • WestShoreSmiles.com

From the first moment you enter the office, it's easy to "C" what all the fuss is about. Rina Singh, DDS, and her team set the tone right away, immediately reflecting what they want to see in you: a more beautiful smile! Dr. Singh's mission statement is "Creating Healthy Beautiful Smiles," and making people smile – even those who have had a different kind of care in the past and have hence been avoiding care – is priority number one. "I love hearing my patients say they used to cover their mouth when they smiled, or didn't smile – and now they can't stop smiling," Dr. Singh exclaims. "Here at our office a beautiful smile is just the beginning."

Dr. Singh believes strongly in the importance of seeking out experienced dental professionals. After all, "the mouth is the pathway to oral health and total health," she says, pointing out that her ability to see patients twice a year provides double the opportunity to stay on the right path. During each and every appointment, Dr. Singh accomplishes her goal of a healthier, brighter smile in three ways.

CONSCIENTIOUS CARE

At each visit, whether it's a routine six-month check-up or a patient's first dental exam, Dr. Singh and her team conduct the examination with the same thoroughness. They start with a comprehensive oral cancer screening, examining soft tissue, lips, and tongue, before moving on to the teeth, being sure to educate their patient completely and honestly about everything, including the possible long-term effects of each dental decision – with services running the gamut from children's dentistry and periodontal maintenance cleanings to Invisalign®, implant dentistry, and TMJ treatment plans.

"We bring them back to preventive dental care," Singh adds, "educating, comforting them, helping eliminate their fears and anxiety to dental treatment. When you come to our office, you won't feel like you are at a clinic."

CONCIERGE SERVICE

Not only won't you "feel like you are at a clinic," but the state-of-the-art facilities at Dr. Singh's office, located on Market Street in Camp Hill, may have you feeling like you've arrived at a posh spa. "We have a very warm and welcoming staff that will greet you by your name," she says. "You won't see dental instruments, we have noise-cancelling headphones, so you don't have to hear the dental drill, and dental chairs that massage with heated neck pillows." It all adds up to "helping my patients in a very different way," she exclaims, "which is very gratifying to me."

In recent years, we have updated almost everything, from software to imaging to equipment. "This allows us to cater to each person," explains Dr. Singh, "giving 100 percent and taking time to get it right."

COST-EFFECTIVE CARE

Expert care doesn't have to empty your wallet. Dr. Singh works with most insurance plans to help her patients get the most their plan has to offer them. In addition, she works with Care Credit and offers in office financing under certain circumstances. Additionally, her "Smile Club" is a custom dental savings membership plan that allows uninsured families and individuals to afford preventive dental procedures, as well as receive discounts on other treatments.

Cosmetic Dentistry • Implant Dentistry
Family Dentistry • Invisalign • In-Office Whitening
